Olive on Lime · 2.9 : 1 ✗ fails

Menu mode — neutral ground, Molot headings, Golos Text body

TYPE

Molot: headlines, titles and numbers, 3–7 words. Golos Text: body, menus and UI. No third face, no serif.

GROUNDS

No pure white or black: the lightest ground is Paper, the darkest Peppercorn. In cards, alternate them with Parchment / Soft Peppercorn. Lime and Lemon can fill accent elements (“banners”) set in Molot.

04 / PHOTOGRAPHY · GENERAL RULES

SHOOT IN THE BAR.

Warm, directional light and a shallow depth of field. Compose the scene around the dish or drink, and keep the bar recognisable behind it.

DO

- ✓ Ground layouts in Peppercorn at night, Parchment by day.
- ✓ Let Molot lead; keep body quiet and readable.
- ✓ Save Lemon for highlights.
- ✓ Give each view generous space and one focal point.

DON'T

- ✗ Run every colour at full saturation with no neutral.
- ✗ Set body copy or menus in all-caps.
- ✗ Stack shadow + outline + glow.
- ✗ Use studio sweeps, stock or flat, cold light.
